Dr. William Maher

OUSD Parent: Yes Agenda Item: No

The liberals on this Board like Erickson and Moffat need to start representing the community of Orange. Yamasaki and Page need to lead versus being the sheep they've been for the last several months. Making kids who have a COVID survivability rate of 99.98% mask up like bandits – unfortunately, the thing that's getting stolen is their education, their sanity and their social skills. It's time to do what a growing list of countries, states, counties and schools have done and announce we're going back to something more like normal. OUSD needs to go back to normal. Johns Hopkins Institute for Applied Economics, Steve Hanke backed up his perspective by pointing to a study from a professor at Johns Hopkins University, said indicated lockdown measures ultimately had little impact on reducing COVID deaths. I don't want to live in a masked, paranoid world anymore. You go out, it's silly now. You have to have your mask, you have to have a card, you have to have a booster, they scan your head – like you're a cashier and I'm a bunch of bananas – I'm not bananas, you are.

Concerned Parent

OUSD Parent: Yes Agenda Item: No N/A

I have heard in many meetings these last 6 months, members of this board touting how reverently and seriously they take their oath of office to SUPPORT and DEFEND the Constitution of the United States and the Constitution of the State of California. Yet this board continues to blatantly disregard federal law which by the way trump ANY state law (because of the Supremacy Clause). The most disgusting of which was Mrs. Erikson removing a federal law from a proposed resolution in January for the sheer fact that the entire law was not written out in the resolution for fear that just listing the statute, which is done frequently with citing ed code, CA law, and other statutes, would be confusing. I'm so glad this unbelievable scene was recorded for documentation and legal ramifications to come. Following the law is what is required of your job on this board and not just the laws you want to follow. There is a reason federal laws exist thou they be inconvenient to your personal agenda. I am absolutely disgusted by this boards behavior and the ramifications it has had on my kids. I am looking for any way out of this district because it is run so poorly and in violation of kids constitutional rights as citizens of this country. Make no mistake the fault lies in this board room entirely.

Jessica Peterson

OUSD Parent: Yes Agenda Item: No N/A

Although it isn't listed on the agenda for this evening, there is still a pressing need to address current and proposed Covid related health policies. I am not going to bombard you with data and statistics, although there is more than adequate evidence to support my stance. I am instead going to remind you of some simple, undeniable truths. First, vaccine trials and research are currently ongoing and therefore completely deficient as a basis for promoting current and proposed policies. There are simply no long term studies available and consequently no conclusive data to solidify the safety or efficacy of the vaccines. I'd also like to add that the pharmaceutical companies are suspiciously unwilling to release the data they currently have available. While other states are recommending healthy children not be vaccinated, we in California are needlessly plowing full steam ahead towards mandatory vaccination in order to attend school while simultaneously instituting policy that bans vaccinated student athletes from participation without additional health and heart screenings. This is such a blatant contradiction that you'd have to be utterly daft not to question it. Second, although we are already witnessing the devastating social, emotional and developmental consequences that forced masking and social distancing are having on our children, you've continued to uphold and applaud policy that promotes these practices. The narrative is already being pushed so forcefully that we are lowering our standards to make it fit. Students are spending over 6 hours a day, 5 days a week in an atmosphere that promotes fear and isolation and we wonder why there are so many unusual behaviors, including self harm and suicide even among elementary school populations. You have further isolated any students wishing to exercise their constitutional rights to peaceful protest by leaving them outside in the cold and wind, with no chance of receiving any proper instruction. I will leave you with this; no amount of money, power or prowess will be able to diminish the expanse of shame headed your way if it turns out you were wrong. So I guess my question to you all is: are you really willing to stake your legacy on policies built on insufficient data and greed?

Julie Stoico

j

OUSD Parent: Yes Agenda Item: Yes SB871 Oppose the Issue

Hi,

My name is Julie Stoico. I am a parent of two in the district. I am a faithful volunteer to the schools and now a very concerned parent. To be clear, I am not an anti-vaccinator. I am simply pro-liberty and pro-choice.

The recent COVID vaccine mandate on children has crossed the line. The California government has striped my right to choose what is best for MY family essentially stripping away my FREEDOM OF CHOICE.

Please look at the real statistics amongst school age kids. Children stand a 99.9973% of surviving COVID and getting the natural immunity which is robust, long lasting and broadly effective even in the case of mutations. I believe that the effort to pretend otherwise is a scientific scandal.

We also know that the COVID vaccine does not guarantee protection or STOP the spread of the virus. It is also a fact that vaccinated individuals can spread the virus too!

While other states are withdrawing mandates, California continues to forge ahead. Do you ever question their intentions? Do you ever feel guilty about blindly complying and not considering those families who aren't ready to get their children vaccinated because they're simply isn't enough information on this vaccine?

If COVID is truly such a threat, then why is California the only state proposing bills to mandate this vaccine? Why are some states & countries living completely normal lives? Do you ever question these things?

This vaccine is young. While most mandated vaccines take years of testing and trials before being FDA approved. The COVID 19 vaccine has taken little time, with minimal testing and the overall long term ramifications to ones health are unknown.

At the height of the pandemic, OUSD successfully opened their doors last year for in-person instruction. During the height of COVID's latest variant, your doors remained open for both vaccinated and unvaccinated students. This should be commended. But now when infections are at a low a mandate will be necessary to continue and you will refuse an in person education to any child who does not comply with the mandate? This makes no sense.

I want to leave you with this. A borrowed quote.

What is right for you may not be right for me. What is right for me may not be right for you. But what is not right for either of us is being stripped of the freedom to choose what is right for ourselves.

I speak for thousands of concerned parents. While the choice to vaccinate your child may not sit close to your heart, perhaps the next government mandate will. So I beg you to consider fighting with the parents and for the parents and if nothing else I ask you to fight for OUR constitutional rights to choose.

Mr. Godsoe

OUSD Parent: No Agenda Item: No

At your next meeting, this Board should unilaterally unite and demand violence against all precious teenage girls should never be tolerated, and scumbag criminal defense attorney should not have any more influence over our children. When criminal defense attorney / Board Member Kris Erickson fights harder for illegal aliens who batter and murder teenage girls, than she does for the rights of law-abiding families we have a major problem.

Alternatively, Kris Erickson can just do everyone including herself a big favor (including herself and her low life criminal clients) and just resign in absolute disgrace right now.

I would like to bring your attention to the life of assault and murder victim Ceceline Godsoe. An angel of a young lady who was violently murdered at Fairview Regional Park on Sept. 21, 2001. Sweet Ceceline was savagely beaten at 16 years of age and left to die in a Costa Mesa park. Beautiful Ceceline died of injuries to her face, neck and upper torso that were consistent with being punched or stomped, according to trial testimony. Her body had been dragged about 25 feet and was found at the end of a trail by the edge of a cliff. Her loving father, William, found her body. In 2004, convicted murder and illegal alien Victor Manuel Garcia became the first accused juvenile killer extradited from Mexico to Orange County to stand trial for a murder, though he eventually stood trial as an adult.

Deputy District Attorney Matt Murphy, in a statement to jurors at Garcia's murder trial, said the killing might have been considered second-degree murder, but Garcia tried to hide the body. "What gets this case to a first degree murder and what makes this case so bad is that after that beating, she could still be saved," Murphy told jurors. "And he made a cold-blooded decision to drag her down the trail. That's what makes it a first. It's the decision."

The scum of our society sits in this room. A smug condescending wantabe small time politician who doesn't listen to parents or put our children first. Her name is criminal defense attorney Kris Erickson – your OUSD Board Vice President. Is this the best our community has to offer? Murder defense attorney Kris Erickson advocated successfully to get this murder's sentence reduced from 25 years to life in prison to 15 years to life in prison. Erickson advocate for our children to be liberated from these stupid masks, free of untested vaccines that clearly do not work and Erickson's insulting comments about parents and her planted stories in the Foothill Sentry.

"A second-degree murder conviction calls for a sentence of 15 years to life in prison," said Kristin A. Erickson, the appeals attorney for Garcia who argued for an even less- severe conviction.

While criminals deserve a defense, so do our children. Our children and families deserve advocates as Trustees on this panel who support us. The good people of OUSD should be on the side of the victims, the police, the kids, the parents – not on the side of the School Board made up of a fringe liberal majority, hypocritical State politicians and alleged "Public Health Officials" who until recently had the limited authority to regulate restaurants not every aspect of our children's lives.

Pham Trai Cam

OUSD Parent: Yes Agenda Item: No

My name is Pham Trai Cam. My family fought communism in Vietnam, Laos and Cambodia. To my big surprise, I have to fight communist curriculum again inside OUSD with your oppressive mask and vaccine mandates. Not to mention your wasteful spending. Villa Park High School's glass monstrosity on Taft Avenue is out of character for the neighborhood. Too large, too modern, too ugly, too expensive. Just another bloated government spending project that provides little to the community and a platform for politicians to grandstand.

In fact, the four OUSD school's in Villa Park are the textbook definition of physical blight. Not to mention the functional obsolescence of your outdated curriculum and over emphasis on programing your socialism into the mind's of impressional children.

My kids learn more reading "The Kid's Guide to Fight Socialism." This should be mandatory reading in every classroom. Board Members Erickson and Moffat should educate themselves on the principals of a constitutional republic.

<https://kidsfightsocialism.thekidsguide.com/>

Our schools need the pledge of allegiance, God and American Exceptionalism taught in our classrooms. Our kids need to be taught this Board has zero or very little authority over them. Our Constitutional Rights Trump your Board. Yes, I used the word Trump because Liberals can't stand to hear it because Trump put Real Americans first.
